IPAI LAB

YOUR PLACE FOR COLLABORATIVE, USER-CENTRIC AI INNOVATION

On the ground floor of our IPAI SPACES, the IPAI Lab living lab spans 409m2. Here, we offer the ideal environment to **collaboratively and user-centrically develop, test,** and **evaluate new AI applications:**

OUR IPAI LAB OFFERS DIVERSE USAGE SCENARIOS

→ Set up **individual test environments** in our parcels to quickly test solutions under real conditions

→ Use the event area for events and discussions to **involve end users** or cooperation partners on-site in **product development**

→ Rent our workshop room to **develop new ideas with your team**

→ Use our openly designed IPAI Lab as a **showcase for your product innovations**

→ Benefit from **short distances** and exchange ideas with other experts from the on-site community

IPAI LAB BENEFITS

BENEFITS AT A GLANCE:

Bring your AI projects quickly into practice and develop solutions that are even more user-centered and generate maximum impact. Our IPAI Lab offers the ideal platform for collaborative product development:

→ **Work interdisciplinarily** with cooperation partners **directly on-site** and integrate different perspectives from the beginning for **holistic solution development**

→ **Minimize the risk of new product launches:** test, iterate & optimize new solutions under realistic conditions before launch – for a **quick proof of concept**

→ **Deepen your collaboration within the community** and expand existing or new cooperation projects to physical solutions

→ **Collaborate across companies** with experts and jointly develop new, innovative solutions

→ **Accelerate your product development** by directly testing and purposefully further developing new solutions within the community

→ Use the offerings according to your needs thanks to **short contract terms**

MORE HIGHLGHTS:

→ 4.00m ceiling height

→ Access via rolling gate

→ Barrier-free access

→ Heavy-duty floor – 10.0 kN/m^2

→ Event kitchen

→ Power (16A) / High-voltage power (32A)

→ WIFI / LAN

→ Flexible use through 3 integrated areas (parcel, event, workshop)

IPAI LAB

PLOTS

The plots in our IPAI Lab provide ideal conditions as a testing and experimental environment for the development and validation of new technologies, products and services.

Floor: Ground Floor

Size:

→ 1 x Size S: approx. 29m²

→ 3 x Size M: approx. 37m²

User-Scenarios: Prototyping, Testing

Equipment: Electricity/High voltage, lab network, lockers and external display

Additional: Minimum term: 3 months, then cancellable monthly

Price (Net):

External:

Size S: 3.050€/Month
Size M: 3.850€/Month
